CRAFTED WITH PRIDE  IN THE USA

AMERICAN FYRE DESIGNS

Homeowners all over the country have come to realize the allure of fire in their backyards. Fire brings warmth, glow and serenity, encouraging us to relax and unwind. An American Fyre Designs fire feature will anchor your outdoor living space and turn your patio into an outdoor sanctuary inviting conversation that flows well into the night - even when there is chill in the air.

From fireplaces perfect for cuddling up under the stars, to fire tables ideal for entertaining, to fire falls that combine the charm of fire with running water, each product is expertly crafted from innovative glass fiber reinforced concrete (GFRC). GFRC derives its strength from a combination of alkali-resistant glass fiber and acrylic polymer that results in concrete that is flexible without cracking and durable enough to sustain the outdoor elements. Modularly constructed as easy-to-assemble components, American Fyre Designs products fit easily into most backyards, making installation fast and simple.

American Fyre Designs products are available in a variety of styles, colors and textures to complement any décor. Warm your outdoor living area with American Fyre Designs.
